COFFEE

Black Coffee	3.3
Small Milky Coffee	3.8
Large Milky Coffee	4.3
Soy, Lactose Free, Decaf, Extra Shot	0.5
Nut Milk	1

OUR BLENDS

Juggernaut: A full bodied medium roast with notes of milk chocolate, toasted almonds and a vanilla malt finish.

Sabertooth: A light vibrant blend roasted specifically for black espresso. Notes of Raspberry and citrus with intense sweetness, juicy body and sparkling acidity.

ALTERNATIVE BREWS

Batch Brew: 3.3

Akin to the old-school American drip filters, the batch brewer produces 2 litre batches of Pour-Over style coffee steaming hot and ready to go.

Cold Brew: 4.0

A Two Before Ten specialty, our cold brew is steeped over 22 hours and triple filtered to produce a strong, smooth, refreshing coffee to be served ice cold.

Aeropress: 6.0

From the inventor of Aerobie Frisbees, the Aeropress is a plunger style brewer that uses air pressure to push steeped coffee grounds through a fine paper filter. The result is a strong, clean brew that showcases the quality of the roast

Pour-Over: 6.0

Pour-Over brewers use gravity-fed percolation to pass hot water over coffee grounds then through a paper filter. The final product is a delicate brew with low acidity that highlights the sweeter flavours of the bean.

TEAS

English Breakfast	4
